WORK EXPERIENCE

NATIONAL IRRIGATION ADMINISTRATION UPPER PAMPANGA INTEGRATED IRRIGATION SYSTEMS (NIA UPRIIS)

Data Controller & Internship | January 2025 – December 2025

- Developed internal systems, including the ICT Support Ticketing System and Vehicle Dispatch System.
 - Customized and improved existing systems to meet agency requirements.
 - Provided IT support, including network troubleshooting and hardware maintenance.
 - Maintained office computers and peripherals, including printer repairs.
 - Operated sound systems and manage technical setup for meetings and events.
-

PROJECTS

CAREERA: A CROSS-PLATFORM STUDENT COURSE REFERRAL AND COUNSELING USING SORTING ALGORITHM

- Developed the full-stack application using PHP, Javascript, and MySQL, including backend, frontend, and database
- Build system features to support student course selection and recommendation workflow.
- Integrated an existing assessment exam into the platform, creating automated handling of responses.
- Implemented a sorting algorithm to generate personalized course recommendations.
- Design system flow and functionality based on project requirements and collaborated on UI implementation from Figma designs.

ICT SUPPORT TICKETING SYSTEM

- Developed a web-based system to manage and track technical support requests from multiple offices.
 - Enabled users to submit issues such as printer repairs, software problems, and hardware concerns.
 - Build features for ICT staff to monitor request status, maintain a history of resolved tickets.
 - Implemented the system using PHP, Javascript, MySQL, and Bootstrap.
-
